Headteacher: David Potter

Dear Parents/Carers

MEDICAL INFORMATION

If your child suffers from **Asthma** please can you ensure that they have their Ventolin on them at all times, or logs one with me. We are now legally allowed to keep one in the Medical Room with their name on it, where this was not previously the case. However, they must have their own; we are not allowed to give someone else's as it may be a different dose.

Please also complete and return the form: **ASTHMA – INDIVIDUAL HEALTH CARE PLAN**

This can be downloaded from the school website.

If your child has **allergies** or is at risk of **Anaphylaxis** please complete and return the form: **ALLERGIES & RISK OF ANAPHYLAXIS** available on the school website.

Care plans for students with **Diabetes** or **Epilepsy** should be completed in consultation with your child's nurse and a copy logged with the school. It is the parent/carer's responsibility to ensure this information is made available to me at the school.

Yours faithfully

Mrs J Campbell
Welfare Assistant
